Presentations/Invited talks

Master Classes:

Brown (2018) “Cost Effectiveness, Return on Investment, and Social Return on Investment for assessing healthcare interventions and services,” One-day workshop for health researchers at the Auckland University of Technology. The workshop provided an overview and examples of ROI, the complexities of conducting a Social ROI, and the situations where it is more appropriate to conduct a cost effectiveness study. The workshop involves graduate students from UC Merced assisting the researchers in designing projects. Held in Auckland, New Zealand. (March 27, 2018)

Brown (2016) “Using Return on Investment in Public Health Departments,” Two-day workshop for staff from Public Health Departments in the San Joaquin Valley and the California Department of Public Health focusing on using return on investment (ROI) analysis for public health services. Held in Wawona, Yosemite National Park. (April 21 to 22, 2016)

Brown (2015) “Using Behavioral Economics to reduce medical errors and promote patient safety in hospitals,” Two day workshop for medical professionals in Bogota, Colombia focused on how to use behavioral economics to develop interventions for reducing medical errors in hospitals. Held in Bogota, Colombia. (October 24 to 25, 2015).

Brown (2015) “Cost Effectiveness Analysis and Priority Setting in Mexicali,” Two day workshop in conjunction with the Society of Public Health in Baja California. The workshop provided researchers and public health officials from Baja region of Mexico with training in topics relevant to public health practice. Held in Wawona, Yosemite National Park. (August 20 to 21 2015)

Translation/Dissemination of Research

Translational Research Center (2015 to present)

Helped develop center at UC Merced focused on translating and disseminating scientific information to the broader community. Center activities includes leading a Community Advisory Group, working with faculty and students to disseminate information, developing community based research projects, and providing community input to faculty and graduate students about their research.

Research Week – Translational Research (February 10, 2015).

Day-long session for graduate students and undergraduates at UC Merced focused on translational research and team science.

Working with Valley Fever in Agriculture (February 11, 2015).

Panel discussion involving researchers and LHD officials, presented at the World Ag Expo, the largest farm expo in the world.

Building a culture of health in the Central Valley (May 12, 2015).

Day-long workshop for high school teachers in the region on healthy eating and nutrition. The day included academic and community members speaking on four topics: Health eating in schools, health eating outside of schools, promoting exercise in schools, and promoting exercise outside of schools

Healthy People in Mariposa's Changing Climate (May 20, 2015).

Day-long event with Mariposa County focusing upon the impact of climate change on rural counties in California. The day-long event included speakers from UC Merced, the State of California, and various county agencies.

Tobacco Use: New Products, New Policies (February 15, 2014).

Day-long event for Research Week focused on smoking research.

Nature and Health (November 7, 2014 - November 8, 2014).

Two-day series on health related research for teachers in the San Joaquin Valley. The event was held at the UC Merced Wawona facilities. The day featured a series of speakers from UC Merced on health related topics.

Valley Fever Research Day: Setting Research Priorities in the San Joaquin Valley (June 29, 2013).

Day-long gathering of researchers focused on Valley Fever: Valley Fever Research Day: Setting Research Priorities in the San Joaquin Valley. The event was attended by researchers from the region and other UCs, and focused on identifying what is known and unknown about Valley Fever.

Valley Fever: What next? (November 13, 2013).

Event focusing on Valley Fever in the San Joaquin Valley. The event focused on translating the results of what is and is not known to the public, community leaders and politicians, and then focusing on collaborations moving forward.
